Introducing the All New CenterEdge Hybrid Tablet

Easy to set up and use, the Hybrid Tablet is a versatile device that provides full access to the CenterEdge Advantage Software suite anywhere in your park.

The Flexibility Your Team Needs

Equipped with a swivel base mount option, freestanding charging stand, 2D barcode scanner and shoulder strap, the new Hybrid Tablet is a reliable tool that allows your team the flexibility needed to efficiently manage the park and guests, even on the most unpredictable days.

- Quickly process transactions and take payments anywhere in the facility
- Easily transition tablet to a fixed workstation as desired
- Conveniently place on and off charger for continued use throughout the day

The Experience Guests Love

Take the CenterEdge Hybrid Tablet directly to your guests, anywhere in the park. Position staff where they will provide the most value during high-traffic times or important events. The Hybrid Tablet allows staff to:

- Provide faster table and laneside food and beverage service
- Easily manage & modify event details and packages in real-time
- Accelerate the guest check-in process and reduce wait times

The Profitability Your Business Deserves

Never miss another sale. Provide unique, personalized experiences that guests love while increasing guest spending and growing revenue.

- Accept credit card payments
- Upsell with personalized ordering services to poolside cabana guests
- Set up mobile concessions or retail carts throughout your park
- Reload game cards efficiently
- Sell gift cards on the fly
