CenterEdge Payments

## An Honest & Transparent Approach to Credit Card Processing

CenterEdge Payments is a transparent and simplified credit card processing solution for the family and location-based entertainment center, waterpark, amusement park, and specialty attraction industry.

Merchant Portal

Gain visibility into your merchant services transactions, billing, chargebacks, and reporting to better manage your credit card processing program. Your merchant portal centralizes statements and allows you to view pending chargebacks and their statuses. If a chargeback occurs, a dedicated response team will assist you in disputes.

Multi-Channel Payments

Offer guests diverse payment options like Click to Pay via secure links, contactless payments, and credit card tokenization. These methods boost staff efficiency, enhance security, and improve overall guest satisfaction. Additionally, recurring billing and payments provide flexibility for guests and generate consistent revenue for your business.

Security Tools

Protecting your business is our top priority. Our security tools ensure a safe webstore and on-premise buying experience, reducing the risk of theft and fraud. We capture payment information securely, protect guest data, and maintain standards to ensure alignment with industry compliance requirements.

Pricing Programs

Hefty credit card fees shouldn't be a burden. CenterEdge Payments offers industry-first pricing programs that help you offset processing costs through dual pricing, competitive rates, and flexible cost management. Enjoy significant savings and greater control over your expenses.

Integrated Payments

Seamless integration is essential for credit card processing. CenterEdge Payments fully integrates with the Advantage Software Suite, enabling you to leverage industry-specific merchant services for onsite and online sales, events, food and beverage, memberships, and other selected integration partners to meet your unique needs.

> *"Having it all in-house is a no-brainer. You don't have to worry about a third party if there's an outage; it's all through CenterEdge, and they're on top of any issue.*
